  Yahtzee
  Dominoes

Summertime Math
Grades 6 through 9

The Pike School
34 Sunset Rock Road
Andover, MA 01810
www.pikeschool.org
Summer is a wonderful time to reconnect with your kids and no better way to do that then spending time together. Read a great book together and discuss your favorite parts. Learn a new card game and play with the whole family. Spend some time outside in the evening learning the names of the summer constellations. Catch fireflies and watch them on a summer evening. Plant a garden and watch the growth of the plants. Let your kids be curious and discover the world around them. There is math all around us. Teaching our kids to be logical, curious, creative and insightful are important skills. Taking the time to learn new things in extra time that summer allows is the best gift we can give our kids. Share the Sudoku puzzle from the newspaper or pour over a jigsaw puzzle together. Spend the evenings making new memories while playing a game of Yahtzee. Wonderful memories can be made this summer!
